SUMMARY

Hello there I am Karim, a web development professional with 4 years of experience. I have worked on a variety of technical projects that include developing web applications using modern technologies. I have excellent skills in React, Next.js for the client side, Node.js and Express.js For server side, as well as proficiency in JavaScript. I am always striving to develop and improve my technical skills and build great applications that meet the needs of users. || My Portfolio: <https://karimemad.netlify.app>

WORK EXPERIENCE

Full Stack Developer at Stream Creations

July 2024 - Present

As a Full Stack Developer at Stream Creations, I specialize in PHP and WordPress development, with expertise in Shopify and the Salla platform. I design, build, and optimize web and e-commerce solutions, ensuring high performance and seamless user experiences. My role involves both front-end and back-end development, client collaboration, and ongoing support.
