SUMMARY

Software Engineer with 5+ years of experience building scalable web applications and e-commerce solutions. Specialized in full-stack MERN development with a strong track record across SaaS platforms, financial systems, HR tools, and delivery management applications. Adept at delivering end-to-end projects from architecture to deployment.

WORK EXPERIENCE

Full Stack Developer · United Web Development

Jun 2025 – Present

- ▶ Built a comprehensive financial management system and investment fund dashboard with approval workflows, user roles, and advanced reporting.
- ▶ Developed a multi-branch e-commerce platform for a retail brand with custom delivery tracking, live map integration, and a driver PWA.
- ▶ Delivered real estate websites with property listing, filtering, and inquiry management.
- ▶ Led performance-focused rebuilds and re-architecture of legacy client websites.

Full Stack Developer · Stream Creations

Jul 2024 – May 2025

- ▶ Specialized in MERN Stack development — MongoDB, Express.js, React, Node.js.
- ▶ Built and optimized web and e-commerce platforms using PHP, WordPress, Shopify, and Salla.
- ▶ Managed front-end and back-end tasks end-to-end, ensuring seamless user experiences.
- ▶ Collaborated directly with clients, providing ongoing support for scalable applications.

Shopify & Salla Developer · CAF SAP

Oct 2023 – May 2024

- ▶ Delivered e-commerce projects for clients across Saudi Arabia using Shopify and Salla.
- ▶ Built and customized themes; collaborated with a top-tier IT team on high-profile deliverables.

Full Stack Developer Intern · Wxora

Apr 2023 – Jul 2023

- ▶ Completed hands-on training in React, Node.js, and MongoDB, working on real-world projects.

E-commerce Manager · Eagle

Feb 2021 – Mar 2023

- ▶ Administered the company's online store on Shopify and Odoo, overseeing end-to-end operations.
- ▶ Worked with internal teams to implement updates, optimize listings, and resolve technical issues.

WordPress Developer (Part-Time) · Tamken

Jan 2022 – Mar 2022

- ▶ Contributed to WordPress website development, customization, and plugin management.

FEATURED PROJECTS

Gym Management System — Next.js · Node.js · Express.js · MongoDB · Redux · PWA

- ▶ Full-featured gym platform with QR/barcode attendance scanning, 5 role-based dashboards (admin, trainer, cashier, receptionist, member), and granular permissions.
- ▶ Integrated loyalty points, payment tracking, financial reports, WhatsApp notifications, and backup system.
- ▶ Delivered as a PWA supporting both web and mobile with offline capability.

SaaS Restaurant Menu & Ordering Platform — Next.js · Node.js · Express.js · MongoDB · PWA

- ▶ Multi-tenant SaaS: restaurants self-register, configure menus, and go live through a full onboarding flow.
- ▶ Customers scan a QR code to browse and place orders; orders flow through 5 kitchen stages with real-time updates.
- ▶ Dedicated delivery PWA app with live map tracking from dispatch to customer doorstep.

HR & Leave Management System — Next.js · Node.js · Express.js · MongoDB

- Smart check-in/out system with PWA support; full employee records management.
- Employees request leave/remote days based on remaining balance; HR approves through a structured workflow.
- Excel export for reports; email notifications via Nodemailer.

Financial System & Investment Fund Dashboard — Next.js · Node.js · Express.js · MySQL

- Multi-role dashboard for managing investment funds, user permissions, and approval cycles.
- Public-facing website with full i18n (next-intl) and interactive charts via ApexCharts.

Social Media Management SaaS — Next.js · Node.js · Express.js · MySQL

- Role-based platform for agencies: Manager, Content Creator, and Client each have distinct dashboards.
- Full post scheduling and approval workflow with voice-over support and mobile post preview.
